

Publikationsverzeichnis (Jahr 2023)

Fachgebiet Umweltsicherheit und Institut für Partikeltechnologie der BUW

Bücher und Buchbeiträge (1)

E. Schmidt Dust Separation, Ullmann's Encyclopedia of Industrial Chemistry, 6th Edition 2000, and Electronic Release, 7th Edition, 2008, 8th Edition, WILEY-VCH, Weinheim 2023

In Fachzeitschriften veröffentlichte Beiträge (7)

J. Lunewski Experimental investigation into paper dust formation during knife edge cutting
E. Schmidt on a laboratory scale, Nordic Pulp & Paper Research Journal 38 (2023) 1, 59 - 72

D. Schulz Development and evaluation of force balance based functions for dust detachment
S. Reinecke from bulk particles stressed by fluid flow
N. Woschny, E. Schmidt, H. Kruggel-Emden Powder Technology 417 (2023) 3, 118257

D. Horst Ansatz zur Quantifizierung der mechanischen Festigkeit eines Staubkuchens
Q. Zhang Chem.-Ing.-Tech. 95 (2023) 10, 1654 - 1661

V. Kolck Analysis of process parameter sensitivities of jet-based direct mixing gas phase
J. Witte hetero-agglomeration by DEM/CFD-modelling
E. Schmidt, H. Kruggel-Emden Powder Technology 429 (2023) 9, 118963

J. Witte Investigation of a jet-based direct mixing process for improved structuring of
Z.C. Hua conductive battery hetero-agglomerates
V. Kolck, H. Kruggel-Emden, S. Heinrich, E. Schmidt Processes 2023, 11, 3243, 1 - 21

M. Weidemann Staubbinding effizient gestalten: Welchen Beitrag kann Elektrostatik leisten?
E. Schmidt Filtrieren und Separieren 2023 6, 38 - 45

J. Lunewski Application of dynamic image analysis to the optical characterization of fibrous bulk
E. Schmidt material Particuology (accepted for publication)

In Tagungs- und Berichtsbänden veröffentlichte Beiträge (11)

J. Lunewski Fibre characterisation by dynamic image analysis
E. Schmidt Filtech, 14-16 February 2023, Cologne (F03-05)

M. Kaul SmartGreen – Accounting the ecosystem-performance of urban greenings
G. Reznik, E. Schmidt Filtech, 14-16 February 2023, Cologne (G08-13)

M. Weidemann Simultaneous release and separation of dust by means of electrostatically assisted
E. Schmidt spray nozzle systems - experimental procedures
Filtech, 14-16 February 2023, Cologne (G09-09)

N. Woschny Dust emission prediction – Announcing a reference material
E. Schmidt Filtech, 14-16 February 2023, Cologne (G09-10)

N. Woschny Single bulk particle investigations for dust release simulations – Describing impact and
G. Reznik fluid stressing
M. Kaul, D. Schulz, H. Kruggel-Emden, E. Schmidt Filtech, 14-16 February 2023, Cologne (G09-11)

- J. Witte Investigations into a jet-based process of direct mixed aggregation in the gas phase for
V. Kolck the formation of hetero-aggregates
H. Kruggel-Emden , E. Schmidt Filtech, 14-16 February 2023, Cologne (G09-12)
- Q. Zhang Structural changes in the filtering layer during the dust separation with filtering
separators – A holistic view of the filtering process
 Filtech, 14-16 February 2023, Cologne (G11-02)
- V. Kolck DEM/CFD modelling of jet-based mixing gas phase hetero-agglomeration for the
J. Witte analysis of process parameter sensitivities
E. Schmidt, H. Kruggel-Emden Partec, September 26-28, 2023, Nuremberg, 346 - 350
- Z.C .Hua Coating of nano and micron sized particles in a vibrated fluidized bed with injection of
J. Witte an aerosol
S. Pietsch-Braune, E. Schmidt, S. Heinrich Partec, September 26-28, 2023, Nuremberg, 505 - 506
- J. Witte Experimental study of a jet-based direct mixing process for the formation of
V. Kolck, Z.C .Hua conductive battery hetero-agglomerates
S. Heinrich, H. Kruggel-Emden, E. Schmidt Partec, September 26-28, 2023, Nuremberg, 718 - 722
- J. Lunewski Application of the discrete element method to fibre network modelling and dust release
E. Schmidt simulation during cutting operations
 Partec, September 26-28, 2023, Nuremberg, 851 - 855
